

KUROPATKIN

Hurls Force Against Japanese

Russians Take Several Positions by Storm

GENERAL SENDS HIS REPORT

Telling of Success Attending the Advance of His Army Against Oyama.

London, Jan. 28.—(Bulletin)—A Paris dispatch which appeared in St. Petersburg to the effect that General Kuropatkin had opened negotiations with Field Marshal Oyama, is given little serious consideration here, in view of the fact that General Kuropatkin is known to have assumed the offensive.

St. Petersburg, Jan. 28.—Success has been attending the advance of the Russians against General Oyama's army. Gen. Kuropatkin telegraphs as follows: "The advance has commenced on our right flank against the enemy. We have occupied Khailatosa and Kheigoutaya. No details have been received of losses at Khailatosa and Kheigoutaya, which are seven versts southwest of Sandepas. We occupied Khailatosa without firing, the Japanese being bayoneted. Kheigoutaya was bravely defended, but we finally occupied it at 10 o'clock at night. Our cavalry pursued two regiments of Japanese dragoons, which fled southeastward. On our left flank a detachment repulsed the Japanese and occupied a defile between Khandensen and Epanasan. Another detachment sent against the Japanese flank near Hindcheng forced the Japanese to retire and captured 200 cattle."

Supplementing the foregoing, General Kuropatkin says: "From later reports it appears that in capturing these positions we made prisoners of 100 Japanese. We also occupied the village of Wehetaitein, on the Hun river, losing 50 men. On Jan. 26 our troops continued the offensive against Sandepas. The Japanese attacked our position near the village from the south and southeast, but were repulsed. Our cavalry participated, maneuvering against the left flank, and attacked the Japanese in the rear. Our force then attacked Sandepas, and at 7 p. m., after a desperate fight, with the assistance of sappers, we surmounted the strong entrenchments and occupied the large village. The same day our troops occupied the enemy's entrenchments at Shakhe and repulsed Japanese attempts to retake them."

General Kuropatkin's successful repulse of the Japanese advance comes most opportunely. The belief exists here that Field Marshal Oyama sought to take advantage of any depression prevailing in the Russian ranks, as the result of the news from St. Petersburg, to launch an attack against General Kuropatkin's right; but the Russian commander-in-chief seems to have nicely turned the tables, inflicting considerable loss upon the Japanese and taking several positions westward along the plain of the Hun river. Evidently General Kuropatkin is following up his victory, the latest dispatches indicating that there is a battle in progress extending along the center and becoming more and more serious. However, it seems to be confined to artillery. If the fighting develops into a general engagement military men here believe that it must reach out to the flanks, their opinion being that a frontal attack by either side under the present circumstances is impossible.

BANKER BECKWITH

MAY NEVER BE TRIED BEFORE THE COURT.

Gradually Growing Weaker—Has Been Prostrated Ever Since Chadwick Exposure.

Oberlin, O., Jan. 23.—It is the opinion of friends that President C. T. Beckwith of the closed Citizens National bank, will never appear for trial before the federal courts. This is due to his present physical condition. He is gradually weaker. His heart condition is perhaps the worst. His sinking spells are coming more frequently and more severe and should his trial be held at once, his condition would not allow of his presence. He has been prostrated since the Chadwick affair.

RECEIVER IN CHARGE

Of the Affairs of Pan-American Bank—Cashier Missing Since Last Tuesday.

Chicago, Jan. 28.—The police this morning were advised of the arrest in New York of Wm. H. Hunt, president of the Pan-American Bank company, which is in the hands of a receiver. Hunt, according to the police, has been indicted by the grand jury for the alleged embezzlement of \$36,000, and receiving deposits for the institution, knowing that it was insolvent. The New York police were asked to hold Hunt until an officer with extradition papers shall arrive. Cashier W. S. Reiter, has not been located.

Chicago, Jan. 28.—Receiver Edwin C. Day is in charge of the Pan-American Banking company's affairs. A small number of depositors were on hand at the opening hour. They were informed by the receiver that no statement of the defunct concern's condition could be given out. The "Twentieth Century Limited," on which President W. H. Hunt was expected to arrive with funds to relieve the situation, reached Chicago, but so far as could be learned President Hunt was not on board. Mr. Heilmann declared that the whereabouts of Cashier W. S. Reiter are unknown. "The last seen of him by the officials of the bank was at 5 o'clock last Tuesday," he said. "I refuse to say whether or not we think he has absconded."

RESIST REMOVAL

Hargis Bros. and Others Would Stay in Jackson—Sensational Developments Expected.

Lexington, Ky., Jan. 28.—The special bailiff sent to Jackson to arrest Judge Hargis, Senator Hargis, Sheriff Callahan and Elbert Hargis was resisted by Deputy Sheriff Sam Jett, who represented that warrants charging the men named and Jesse Spicer, who is supposed to be in Mexico, with Cockrell's murder, had been sworn out before Magistrate J. W. Edwards. Records were produced, an entry in which represented that two of these warrants had been issued Dec. 3 last, and that James and Elbert Hargis had that day been admitted to bail in the sum of \$2,000 each. An entry under date of Dec. 5 represented that Senator Alex Hargis and Sheriff Ed Callahan had that day been accused in warrants and had given bail in the same sum. Edwards claims jurisdiction and the special bailiff returned empty-handed. The court has not indicated what steps it will take to force jurisdiction, but a sensational development in the case is early expected.

Railway earnings in January were only four-tenths per cent. larger than last year. Output of shoes and hats could not be increased materially, and tin plate mills are fully engaged. Even steel rails are beginning to feel the effect of expanding confidence.

HAS NO PUPILS

BUT TEACHER GOES REGULARLY
TO SCHOOL HOUSE.

Miss McCormick Is Faithful to Duty,
and Draws Salary Quite
Regularly.

Delaware, O., Jan. 28.—Miss Madge McCormick, of Thompson township, this county, enjoys the unique distinction of being the teacher of a school that has no pupils.

The pretty young school mistress regularly plods to the room where she ought to "teach young ideas to shoot." She arrives before the hour set for the opening of the school and cleans the room. Having done this she dutifully rings the "first bell" and then the "second." Punctually, five minutes before the opening time, she sounds the "tardy bell" and then awaits in patient attitude the arrival of pupils who never come.

The young school mistress has been teaching at the Thompson district ever since the opening of the school year, last fall. She began at the time with just one pupil, a girl, who continued under her instruction for one brief month. Since that time there has been no other child to disturb her contemplation of the blackboard nor heed the recess and dismissal bells.

Each morning Miss McCormick goes from Radnor, where she is making her home, to this little schoolroom and there spends the day, returning again each night with the satisfaction that a day's wages has been credited up to her account on the books of the board of education.

Thirty-five dollars each month Miss McCormick is paid for making this tramp to and from her empty school, but the board of education has offered no complaint regarding her instruction, neither has there been heard any expression of discontent on the part of the young lady.

The number of pupils at the school has been dwindling year by year, and it is proposed to consolidate the district with a neighboring one next year.

DEFEATED ZANESVILLE MIDGETS
IN A CLOSE GAME.

Team Work of the Locals Enabled
Them to Defeat Clay City Five
Friday Night.

Zanesville, O., Jan. 28.—Newark 25,
Zanesville 21.

Good records in the past were saved Friday night by the Newark high school basketball team when they met the local Midgets at the Armory hall. But only by a small margin, the game was won by the visitors.

Kibler, right forward for Newark, played the star game, scoring seven of the ten field goals for his team. Pine followed next, this player pulling in stout for the visitors.

For Zanesville, Johns did the good work in the finish. Keller also showed up well in the lead. The latter scored six goals while Johns is credited with three. Johns also scored the only three fouls for the locals.

A great rally was manifested by the local boys in the last six minutes of the game. With the score 23 to 19 they came down the stretch, but with this were distanced by the visitors. A merry crowd of young admirers were out to see the contest.

But Newark players have had the training and a cohesion that is manifested at all times they watched the plays and players with a winning eye. More of these games are promised in the city before the season is over.

The line-up of the respective teams follow:
Newark High Midgets.

DREAMED

Son Was Dying, and His Bride
Hastened to River to Find
He Had Been Drowned.

Chattanooga, Tenn., Jan. 28.—The story of a remarkable premonition of death revealed in a dream, comes from Claiborne county, this state. On Wednesday January 11 Campbell Gillenwaters left his home and went to a logging camp to hasten preparations for starting rafts down the river on the tide that was expected within the next 24 hours, and it was necessary for him to cross the river to reach his destination. It was his intention to return home early the next morning, and this fact was known to his family.

On Wednesday night Mrs. Gillenwaters, the unfortunate young man's mother, dreamed that she saw her son struggling in the waters of the expected tide. She awoke in a fright and aroused the household, telling them her dream. Breakfast was hastily prepared and dispatched, and before daylight came the young man's wife who was a bride of only a few weeks was well on her way, horseback, to meet her husband at the river to warn him not to attempt to cross. When she was very near the river, still riding at the best speed her lathered-out horse could make, she met a man who told her that her husband had been drowned just a little while before, and that his body had not yet been recovered.

During Sunday night the drowned man's mother in law dreamed that the body was hung at the bottom of the river near where last seen. Monday morning her husband returned to the

river, and with others went to the spot indicated by his wife, and in five minutes succeeded in recovering the body.

Returning to Work.
Moscow, Jan. 28.—The day passed off quietly. It is now almost certain that the strike movement in Moscow and its immediate vicinity will wear itself out within a few days. The printers have returned to work and a couple more factories south of the river have reopened. The manufacturers will not be quite reassured until Sunday has gone by, but they remain confident of the ability of the authorities to put down disturbances. This confidence, combined with the announcement that the minister of finance is studying the statement of the men's grievances, explains the decision of the manufacturers' meeting not to make collective concessions.

Demonstration in London.
London, Jan. 28.—The large East End resort "Wonderland," which is notorious as a prizefight arena, was the scene of a remarkable revolutionary demonstration. The audience numbered 3,000 and was composed largely of Russian Jews. A Russian revolutionary leader in London presided and made a speech denouncing Emperor Nicholas and the grand dukes. For the benefit of recent arrivals from Russia he repeated his speech in the Russian tongue. This was followed by a speech from a Londoner, a resident of Eastham, who delighted the audience by denouncing Emperor Nicholas, Emperor William and King Edward, and proposed that the audience rid themselves of "all emperors, thieves and other leaders."

Unemployed in Poland.
London, Jan. 28.—The situation in Warsaw is very grave, according to the correspondent here of the Daily Mail. When the balers struck rich people besieged the shops and bought the stocks, and the supply of bread is now exhausted. The Socialist party was instrumental in organizing the strike. The correspondent adds that the general condition in Poland is pitiable, owing to the bad harvest. There are fully 300,000 unemployed, not reckoning the strikers. Warsaw itself is full of troops, and the gas works and waterworks are being protected by the military.

"A MESSAGE FROM MARS."
Our playgoers may confidently look forward with pleasure to the first appearance here at the Auditorium on Tuesday, February 3, of the famous English comedian, Charles Hawtree, in his superlatively successful comedy, "A Message From Mars."

When this play was given at the Illinois Theater, Chicago the Evening Post said: "Mr. Hawtree gains a ready victory by means of naturalism so nearly perfect that few have occasion to think he is acting—he lives the part. He is the gentleman on the stage; no slink to mar his poise, with

a bearing that lends him the air of a man of distinction and a personality which is one's own in a constantly. The performance in a play all its details, has the stamp of artistic symmetry. There are no blunders to mar and stand out as glaring imperfections. After all, we must concede that English actors can live out players in the interpretation

tion of polite comedy. Mr. Hawtree has been received here more enthusiastically than any English star welcomed to these shores for a good many years. That he deserves all that has been said of him and is being done for him is not to be denied. His

coming is one of the bright spots in the theatrical season.

"PECK'S BAD BOY."
"Peck's Bad Boy" is coming to town again, and he is all dressed up with everything new. He will be at the Auditorium on Saturday, matinee and night, February 4. Always a well-known visitor, he will be even more so this time for he is bringing with him a larger and better company than he ever had. He has new scenery, costumes, songs, dances and specialties galore. Seats on sale Wednesday, February 1.

COMING SOON.

Mme. Schumann-Heink has started a "long-word club," among the young women he are members of the "Love's Lottery" company. Mme. Schumann-Heink believes firmly in the old German expression about his Satanic Majesty finding work for idle hands. Always busy herself she argues that girls in her company will be better off and advance more rapidly in the profession if hands and minds are kept busy when off the stage. She is teaching the "Love's Lottery" girls many of the things which occupy the time of German and Austrian stage girls when they are not busy at the theater. The "long-word club" members are to bring to the theater before the performance each evening, the longest words they are able to read or hear of. The "Love's Lottery" girls have been very industrious since the scheme was started. "Whence-ever was the longest word turned in the first evening. On the second evening "extraordinarily" led with sixteen letters was the longest. The third evening "impracticability" led with sixteen letters, and on the fourth evening "impracticability" with seventeen letters was declared the winner.

OUT OF THE FOLD.

The story of "Out of the Fold," which is the great pastoral drama, and by Langdon McCormick, billed at the Auditorium theater, soon, it is expected by all Newark that he has taken a long step toward the real drama. It has been the paramount endeavor to offer a heart-story capable of stirring the deepest emotions, and causing the noblest sentiment, all with a powerful treatment. Indeed it has been the desire to put forth a play which in every ap-

pointment will appeal to the better side of everyone who sees it, and at the same time be highly entertaining.

HOYT'S "A BUNCH OF KEYS."
This season Manager Bothner will have an entirely new production from the fact that every act is new, and a much stronger cast and new songs, than has ever been seen in this funny play. New specialties, new dances, have been written for the popular farce comedy. The company is composed of a number of the most clever artists appearing in any farce comedy of the present age. "A Bunch of Keys" comes to the Auditorium soon.

MISS BOB WHITE.

Frank Deshon enjoys the distinction of having been the only Bill Van Millon to appear in Willard Spenser's comedy opera, "Miss Bob White," which has been a good money-maker for Nixon & Zimmerman for the last five years. He has played the humorous tramp more than one thousand times.

Deshon is a Southerner, having been born at Charleston, S. C., and reared near Savannah. He has been in the theatrical business as a comedian since boyhood. He has a long term contract with Nixon & Zimmerman, and is regarded as one of that firm's strongest figures.

Next year he will be placed at the head of a new opera now being written by Raymond Peck and Robert Hood Bowers, authors of "The Maid and the Mummy."

He and all the favorites will be seen when "Bob" appears here in the near future.

Spoiled Her Beauty.

Harriet Howard, of 209 W. 34th St., New York, at one time had her beauty spoiled with skin trouble. She writes: "I had salt rheum or eczema for years, but nothing would cure it, until I used Bucklen's Arnica Salve." A quick and sure healer for cuts, burns and sores. 25c at Hall's drug store.

Elections in Hungary.

Vienna, Jan. 28.—All reports from Budapest indicate that the defeat of the government in the elections is greater than was first thought. Premier Tisza is expected to come to Vienna after the last polling day to formally tender the resignation of himself and the cabinet to the emperor. After being in power since the establishment of the Ausgleich (an arrangement for the division of expenses for purposes common to both Austria and Hungary) in 1867, the Liberals have suffered their first defeat. The gains of the Kossuthists are equally surprising to friends and foes, and the result is so astonishing that no one appears prepared to discuss the possibilities of the situation.

The Italian government has decided to open, in all parts of Italy, 3,450 evening schools exclusively for adults who cannot read or write.

WANTED A WARRANT

Issued For the Arrest of Conductor,
But Alleged Offense Was in
Muskingum County.

Will Merrick, a Newark plasterer, came before Mayor Crilly Saturday morning and made complaint that a conductor on the C. N. & Z. traction line, had roughly used him on Friday night, and he wanted to file an affidavit charging assault and battery. Merrick claims that he was sitting in the car at Zanesville, and became very ill just as the car left Zanesville. He went to the rear platform to get some fresh air, and was ordered inside by the conductor. He went in but before the car had gone very far his sickness became more acute and he again went to the rear platform where he was taken with a spell of vomiting. The conductor came out and roughly pushed him inside, at the same time using abusive language.

Mayor Crilly told Merrick that the alleged offense had been committed in Muskingum county and was therefore outside of his jurisdiction.

The corn product is put to so many uses that the great yield of 1904 will prove a boon to multitudes. Besides directly and indirectly feeding and nourishing millions of the human race and subsisting millions of cattle, swine and sheep, it furnishes material for mattresses, for fluted goods, for pipes and paper. It yields valuable oil and cellulose and also material for the armor of warships. The pith of the cob is used for filling between the armor plates below water line. When perforated this filling contracts and expands the same as cork and rubber and closes the opening against water.

The number of Yale graduates who are busy in other than strictly learned pursuits shows that higher education does not necessarily lead to bookishness. About 25 per cent of the graduates now in active life have taken to manufacturing and commercial pursuits. There are 254 farmers among the graduates as against 330 journalists and authors, a few more manufacturers than doctors and as many financiers as ministers. The law holds the greatest number, but the lawyers are outnumbered by those engaged in nonprofessional callings.

WASHINGTON NEWS

Washington, Jan. 28.—Arbitration treaties were considered by the senate committee on foreign relations, and Senator Bacon made the assertion that action on the various treaties can not be had until they are amended to protect the interests of southern states in the matter of outstanding bonds held in foreign countries, which bonds have been repudiated by the states.

Commissioner of Labor Carroll D. Wright, in his report on the labor troubles in Colorado, says there can be no doubt the cause of the strike was to establish the Western Federation of Miners in the smelters including the reduction and the refining mills, as it already had been established in the mines. He continues: "Lawlessness has accompanied the strike as a labor weapon and it has accompanied the action of the alleged law and order elements as a weapon against the strikers. The faults in the organization of the unions by allowing strikes to be determined by a committee instead of by a referendum, and the faults in the organization of the Citizens' Alliance by allowing irresponsible mobs to represent it, have disturbed the peace of the counties in Colorado. It is a fact, however, that order is being restored, for there is a third party now interested which is claiming the adherence of the best elements in Colorado, and it is insisting that deportations, whether by the Western Federation of Miners or under the instructions of the Mine Owners' association or Citizens' Alliance, shall cease."

The commissioner says the injunction granted recently by the United States court to prevent interference with the return of deported miners may bring up the whole question of the right to deport, or whether deportation is a crime under state or federal laws.

Manufacturers Will Fight Bill. Indianapolis, Ind., Jan. 28.—When the attention of David M. Parry, president of the National Manufacturers' association, was called to press dispatches from Washington to the effect that President Roosevelt, Attorney General Moody and Commissioner of Corporations Garfield approve the bill of Representative Jenkins, which is designed to regulate the use of the court injunction, he said: "The bill will be opposed by the manufacturers of the country almost, I may say, to a man. It simply means when an injunction is applied for it can not be issued till the opposite party is heard in defense; that license will exist to intimidate and destroy while the court appealed to is hearing the cause."

What Burton Says. Washington, Jan. 28.—Representative Burton (O.) charged that selfish motives were actuating his colleagues, Representatives Aldrich and Webster, in their advocacy of sandstone instead of granite in the construction of the Cleveland \$3,000,000 postoffice. This declaration was made before the house committee on public buildings and grounds during the discussion of the Burton resolution requiring the use of granite for this building. Replying to the statement that the late Senator Hanna had advocated sandstone, Mr. Burton requested the committee to summon Elmer Dover, the senator's secretary, and ascertain the views the senator held.

Time of Swayne Trial Fixed. Washington, Jan. 28.—Through his counsel, consisting of former United States Senators Anthony Higgins and John M. Thurston, Judge Swayne appeared in the senate to make answer to the summons in connection with the impeachment proceedings against him as judge of the United States court of the northern district of Florida. They obtained a week's time to make complete response, and the time for the beginning of the real trial was fixed at Feb. 10.

Agricultural Bill Passed. Washington, Jan. 28.—The house passed the agricultural appropriation bill without material amendment. The usual discussion of the provision for free seed distribution was included in Mr. Lilly of Connecticut characterizing it as pet project. The relative value of the cotton statistics as supplied by the census bureau and agricultural department also furnished the theme for a lively debate. The army appropriation bill was sent back to committee after Mr. Williams of Mississippi had objected to unanimous consent to concur in the senate amendments.

DEMOCRATIC TIMBER

For the Gubernatorial Nomination This Year—Judge Badger of Columbus, a Great Favorite—Neither Campbell Nor Chapman Will be a Candidate.

Columbus, O., Jan. 28.—The past week has witnessed two important changes beneath the surface of Democratic affairs in this state. Both relate to the nomination for governor and together they remove two formidable men from the list of possible candidates. These men are ex-Governor James E. Campbell of Hamilton, and Horace L. Chapman, formerly of Jackson, now of Columbus.

Friends of ex-Governor Campbell in this city, understand that he is strongly averse to becoming the standard bearer this year. He reiterates his former statement that his return to Ohio will not be for the purpose of engaging once more in politics. Although a strong sentiment exists at the state capital in favor of Mr. Campbell's nomination, even those who entertain it now understand that he does not desire the honor and therefore they are looking elsewhere for gubernatorial timber.

Horace L. Chapman enjoys the distinction of having come nearer election than any other defeated candidate now living. For this and other reasons many of the shrewdest men in the party have picked him for a winner this year. It is now given out however that Mr. Chapman also must be left out of consideration as a candidate. The condition of his health is given as the cause and it is not unlikely that he will be in Europe during the coming campaign.

This has left more than ample space for a new Richmond in the field. He

is Congressman DeWitt C. Badger of Columbus. Sentiment in Central Ohio is rapidly crystallizing in favor of Judge Badger as the Democratic nominee and unless Colonel Kilbourne should become an avowed candidate, which is not at all probable, there is no doubt that Judge Badger would obtain the Franklin county delegation by unanimous consent. That would carry with it all the Central Ohio counties, and there is good reason for predicting that the congressman would secure material support elsewhere. It is felt that Judge Badger would receive the solid support of the Republicans hostile to Governor Herrick, and at the same time hold the Democratic forces in line without wavering. Although defeated for congress last year, in the Twelfth district, the vote showed that he would have been elected if normal conditions had prevailed. His popularity at home is proverbial and in every essential qualification the judge is a man well calculated to make a successful campaign that would grow in ardor and enthusiasm with every hour following his nomination. While the fact is by no means settled it should surprise no one if Franklin county presents Judge Badger's name to the convention.

Judge Badger would not be the candidate of any faction. His nomination would be highly in accord with the opinion of all Democrats who think the candidate should not be one especially favored by either the river or the lake.

MUSIC AND THE DRAMA

The past week at the Auditorium has not seen any of the higher class attractions, but the management realizes that Newark should not be soiled with the high priced shows which box office returns as well as a failure to please the great majority of the theatre attending public of Newark. Not that the shows have been "trashy" during the week but there has not been one of the very first rank. They have been mediocre from a dramatic standpoint, but catered to those who do not wish the serious in theatricals but go to the play house with the one object to being amused.

The promises of Messrs. Johnson & Matthews for the near future however, are most gratifying and the most captious cannot but be satisfied throughly with the outlook.

On Tuesday, February 7, Willard Spencer's delightful comic opera "Miss Bob White," by many considered his best, will be given an entirely adequate presentation. The music of this opera, most of which we know, is delightfully melodious, and at times rises high in the scale of harmonic excellence. Those who will appear are mentioned in the regular amusement column.

Another attraction which will be epochal in the history of operatic productions in Newark, is the appearance of Mme. Schumann-Heink in the very near future. "Love's Lottery" is a vehicle which will give, not only her matchless contralto voice, but also her exuberant temperament ample scope for the most pleasing exploitation.

Another piece that has been secured is Victor Herbert's musical comedy, "Rabes in Toyland," from a musical standpoint his best work. This has been the unanimous verdict of the critics since its first gorgeous presentation.

"Quincy Adams Sawyer." is a strong rural drama full of those touches of human nature, which cannot become

"backneyed," that find their full development away from the glare of electric lights and urban environments.

Charles Hawtrey in "A Message From Mars" is another play which cannot but please.

Thus the theatre going public can rest easy for the next few weeks knowing that whatever style of drama they best enjoy will be furnished at the Newark play house, running as it does, almost the entire gamut of first class attractions.

Jack Mason, who is now playing an important role in support of Mrs. Fiske in New York, in "Lola Kleischina," was divorced this week by his wife Katherine Grey, who is now with W. H. Crane in Chicago in "Business is Business." He was first married to Marian Manola, who also divorced him.

Fay Templeton, who has been resting since her retirement from "In Newport" at the Liberty Theatre, has been engaged by John C. Fisher and Thomas W. Ryley to play the part of Lady Holroyd in the forthcoming revival of "Florodora," which is to follow the engagement of Lillian Russell in "Lady Teazle" at the Cassino Theatre.

Eddie Foy, the comedian, came near losing his life in walking from the New Rochelle station to his home near Dillon Park, a distance of two miles on Thursday. Mr. Foy had an important rehearsal in New York and paid a truck driver \$5 to drive him from his home to the railway station. When he reached the station he was nearly frozen. His hands were so cold that the driver rubbed them with snow for a half hour before he could feel with them. After Foy thawed out he said, "It's all right for these guys that have a ten of money in the cellar to talk about the suburbs, but Broadway for mine when the winds blow and the snow flies. The twittering of the birds, fresh air and simple life might be all right for some, but a hotel with steam heat and push buttons will be good enough for me in the future."

Jan Kubelik, the famous violinist, has decided to start on a tour to America in the beginning of May. He will go from Hamburg to Brazil, from there to Mexico and finally to the United States, where he will play in every great city from New York to San Francisco. At that city he intends to take a steamer for Australia and does not expect to be back in Europe until 1907.

Lillian Russell and the "Lady Teazle Company" were announced to appear in one act of that opera in Mrs. Stuyvesant Fiske's drawing room. But the fair Lillian now absolutely refuses on the ground that it would be unprofessional and decidedly in bad taste. She says in a letter to her manager:

"Instead of having any inclination to enter a home in a professional capacity I must prefer to rather entertain people about me in my own home. You may take this as a general rule to be applied in all similar cases. Very truly yours,

"LILLIAN RUSSELL."

CAUGHT BY THE GRIP-- RELEASED BY PE-RU-NA.

"The World of Medicine Recognizes Grip as Epidemic Catarrh."—Medical Talk.

A Southern Judge Cured.

Judge Horatio J. Goss, Hartwell, Ga., writes: "Some five or six years ago I had a very severe spell of grip which left me with systemic catarrh. "A friend advised me to try your Peruna, which I did, and was immediately benefited and cured. The third bottle completed the cure."—H. J. Goss.

Cured in Few Weeks.

Miss Jean Cowgill, Griswold Opera House, Troy, N. Y., is the leading lady with the Aubrey Stock Co. She writes the following: "During the past winter of 1901, I suffered for several weeks from a severe attack of grip, which left a serious catarrhal condition of the throat and head. "Some one suggested Peruna. As a last resort, after wasting much time and money on physicians, I tried the remedy faithfully, and in a few weeks was as well as ever."—Jean Cowgill.

Grip Resulted in Catarrh.

Miss Alice Bielke, Treasurer Young Women's Society of the Lutheran Church, Menasha, Wis., writes:

"I gratefully acknowledge the good that Peruna did me after I had been sick with la grippe which left me in a very weak and emaciated condition, with catarrhal trouble of the head and ears. "My mother suggested that I take it to build up my strength and rid myself of the troublesome catarrh, and it acted with wonderful speed. "I was able to resume my work inside two months and I am in splendid health now."—Alice Bielke.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It cannot be acquiring a drug habit. Peruna does not produce temporary results,—it cures.

La Grippe Is Epidemic Catarrh.

It spares no class or nationality. The cultured and the ignorant, the aristocrat and the pauper, the masses and the classes are alike subject to la grippe. None are exempt—all are liable.

Grip is well named. The original French term, la grippe, has been shortened by the busy American to read "grip."

Without intending to do so, a new word has been coined that exactly describes the case. As if some hideous giant with awful grip had clutched us in its fatal grasp.

Men, women, children, whole towns and cities are caught in the baneful grip of a terrible monster.

Have you the grip? Or, rather, has the grip got you? If so, read the following letters.

These testimonials speak for themselves as to the efficacy of Peruna in cases of la grippe or its after-effects:

Saved by Peru-ri-na.

Hon. James R. Guill is one of the oldest and most esteemed men of Omaha, Neb. He has done much to make it what it is, serving on public boards a number of times. He endorses Peruna in the following words: "I am 68 years old, am hale and hearty and Peruna has helped me attain it. Two years ago I had la grippe—my life was despaired of. Peruna saved me."—J. R. Guill.

A Relative of Abraham Lincoln.

Mr. Silas S. Lincoln, who resides at 913 I street, N. W., Washington, D. C., has the honor of being third cousin to Abraham Lincoln. He writes:

"I had la grippe five times before using your medicine. Four years ago I began the use of Peruna, since which time I have not been troubled with that disease.

"I can now do as much work at my desk as I ever could in my life. I have gained more than ten pounds in weight."—S. S. Lincoln.

Pe-ru-na Not Only Cured La Grippe but Benefitted the Whole System.

Miss Alice M. Dressler, 1818 N. Bryant Ave., Minneapolis, Minn., writes:

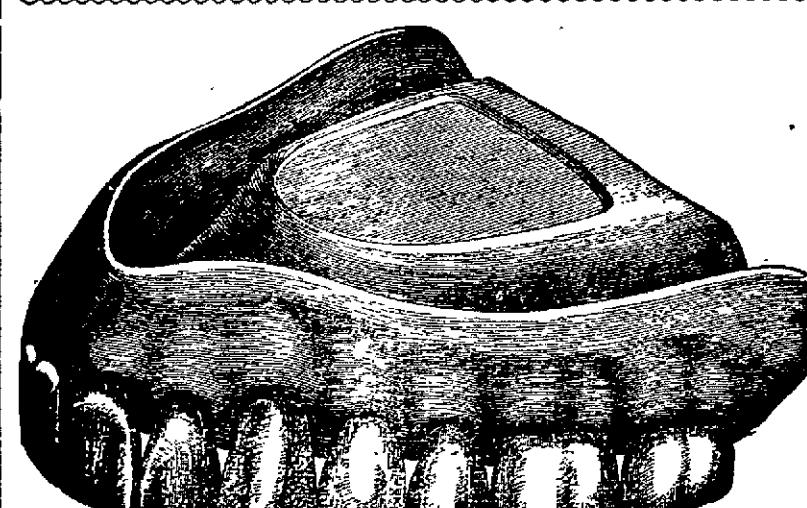

"Last spring I suffered from la grippe and was partially cured, but the bad after-effects remained through the summer and somehow I did not get strong as I was before.

"One of my college friends who was visiting me and asked me try Peruna and I did so and found it all and more than I had expected.

"It not only cured me of the catarrh but restored me to perfect health, and built up the entire system."—Alice M. Dressler.

NOT IMPROVING

As Rapidly as Hoped, is Clyde Crilly, Slept Only Four Hours in Past Week.

Clyde Crilly's condition is not improving as rapidly as could be hoped for. He is so weak that he can't walk across the floor without assistance, and for the past week he has not had more than a total of four hours of sleep and practically no nourishment.

As previously stated Mr. Crilly, who is the son of Mayor A. J. Crilly, picked a small growth upon his hand with a pin not long ago, and the following day his arm was badly swollen. His many friends throughout the city and especially his associates in The Advocate office hope that he may speedily be restored to his usual health.

An investigation by Konradi has shown that the anthrax bacillus may survive in water for three and a half years and the typhoid bacillus for more than 500 days.

A Grim Tragedy

is daily enacted in thousands of homes as death claims in each one, another victim of consumption or pneumonia. But when coughs and colds are properly treated, the tragedy is averted. F. G. Huntley, of Oakland, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for consumption, coughs and colds, which cured her, and today she is well and strong." It kills the germs of all diseases. One dose relieves. Citizens Committee Plans to Push Work of Subscription During the Coming Week.

The citizens committee, interested in trying to provide funds for the placing of the Young Men's Christian Association in good financial condition held a very good meeting at the association building last evening. The committee has been hard at work and was able to report that of the \$12,000 which it will be necessary to raise at this time, about \$4,000 or one-third has been subscribed. This is a good start, but it is only a start and the help of every person interested in the work will be needed to accomplish the result. Plans were made to push the work next week. Those interested should report promptly.

Mrs. Benjamin Franklin has promised to give \$1,000, provided the required amount is subscribed before March 1.

SPENT \$8,000,000

BORROWED \$15,000,000 AND IS NOW IN JAIL.

Reckless Career of Princess Who Is Sometimes Called German Chadwick.

A press cablegram to the Advocate yesterday from Berlin told of the arrest of Princess Alexandra on the charge of treason. This Princess, who is sometimes called the German Cassie Chadwick, has spent \$8,000,000, and owes \$15,000,000, nearly all borrowed. She is the sister of the reigning Prince of Saxe-Coburg and Gotha. She was born in 1855. The Princess has been twice married and twice divorced. In 1875 she was married to Prince Adolph of Saxe-Coburg. The couple were divorced in 1877 by decree of the Grand Duke of Hesse. In 1878 she was married to Hereditary Prince of Saxe-Altenburg. The Princess was divorced in 1899 from whom she was divorced in 1899.

The Princess had an immense fortune at the time of her second marriage, but her reckless, spendthrift habits led her to squander most of it within seven years. She kept a number of houses, and at various homes in town and country kept several hundred horses and employed a regular army of several thousand domestics and servants.

One winter she gave a banquet to 100 guests on 150 evenings in succession, costing a fortune. She kept a yacht almost as large as an Atlantic liner and never made a railway journey without her own special train.

The Baron, her husband, always smoked dollar cigars. These incursions into the principal and interest soon exhausted their means, and they began to borrow money, not even the shrewdest money lenders having the least idea that they had come to the end of their resources.

When it became whispered about that the Princess and the Baron had lost their fortune there was a panic among their creditors, who began immediately to make demands for their money. Violent quarrels now began between the Princess and her husband, with the result that they secured a divorce by mutual consent, the Baron receiving an allowance of \$1,125 a year and the mother retaining the children. The allowance subsequently was discontinued when the Baron married a wealthy girl of Baden Eaden.

The Princess was just 30 years old when she was divorced for the second time. That was 15 years ago. Since then her life has been one long struggle against impending ruin and utter disgrace. At one time she was held up in the streets of Stuttgart and searched for the benefit of her creditors. The bailiff found only \$5.

Her relatives, alarmed at the scandal, promised to pay the Princess an annuity of \$2,500 if she would leave Germany.

This the Princess was glad to accept, and for 10 years was known at the English and Belgian watering places. But semi-respectable life became too tedious for her and she contrived to obtain a substantial loan—it is not hard for Princesses to borrow money in Europe—she took up racing and began to gamble in a reckless manner until she had lost all she had borrowed and contracted bigger debts. She then tried to run a hotel at a summer resort, but failed.

JOS. MARRALI TRAGIC DEATH

Young Newark Man Employed by the Baltimore & Ohio Railway Company Fell from a Train Near Somerset Friday Afternoon.

Joseph Marrali, a young Italian of this city, who has been employed by the Baltimore and Ohio railway company, was killed Friday afternoon by falling from a train near Somerset. The remains arrived in Newark at 6:10 Friday evening and the body was taken to the undertaking establishment of J. A. McGonagle. The following from Somerset gives the details of Mr. Maiale's tragic death.

Somerset, Jan. 28.—With his neck and back broken and nearly every bone in his body crushed or dislocated, the lifeless form of Joseph Marrali, an Italian, aged 20, was picked up by fellow workmen shortly after 1 o'clock Friday afternoon on the Baltimore and Ohio railroad tracks in the "cut" near this town. Marrali had fallen backward from the rear of a flat car and was dragged 150 yards before the work train was stopped. It was then that his mangled body was picked up.

Marrali was employed as a laborer by the B. and O. road. He and quite a number of other workmen were in charge of a work train that was cleaning out the debris that gathers in the "cut" near here, when the unfortunate accident occurred.

The remains of Maiale were taken to Newark on the 5 o'clock train last evening, after they had been prepared for burial by local undertakers. The dead Italian was single, and was said to have been a good workman.

The body will be taken to Cleveland where an uncle lives, and where the interment will be made. His father and two sisters live in Italy.

NEWARK BOY

Arrested at St. Louis For Forgery

Now Languishes in Jail at Columbus

CHECKS IN HIS POSSESSION

When Columbus Officers Arrested Him in a St. Louis Hotel for the Alleged Crime.

Columbus, O., Jan. 28.—Frank Harris, a Newark boy, 17 years of age, is in prison here on the charge of forgery.

Young Harris was returned to Columbus from St. Louis this morning by Detectives Owens and Beard and will be given a hearing this afternoon on the charge of forgery.

The youthful prisoner says that his father is a division superintendent of the Baltimore and Ohio railway company at Newark and that his father resides at No. 55 Webb street, that city. The lad expects his father to come to his rescue this afternoon or tonight.

Speaking to your correspondent today Harris said that it is no trouble to make checks cashed if they are made out properly. In the name he had rubber stamps made with names of firms he intended to counterfeit. In Columbus he selected the Standard Printing company and signed the name of C. E. Reinhard to the check, using a rubber stamp and also marking the check with a machine "No. 10" or "100." After having three or four checks cashed in Columbus Harris went to St. Louis and when arrested by the Columbus officers he was working as a waiter in a St. Louis hotel. In his possession were found seven checks for amounts ranging from \$12 to \$15 drawn on St. Louis firms. Harris is held at headquarters of the police department awaiting arraignment this afternoon.

The foregoing dispatch was wired to the Advocate at 3 o'clock Saturday afternoon, too late to thoroughly investigate the case before the press hour. The city directors give no Harris family living at 55 Webb street but a telephone message from a house in that vicinity says that a Harris family lives at 55 Webb street, and that the head of the family is a B. & O. employee. However there is no man named Harris holding a prominent position with the B. & O. as announced in the dispatch.

RAILWAY RUMBLES

DISCRIMINATION ALLEGED IN SUIT AGAINST PENNSY.

Grain Rates Reduced on M., K. & T. to Gulf Ports—Budget of Local Railway Paragraphs.

Philadelphia, Jan. 28.—Suits for damages aggregating almost \$2,000,000 were brought against the Pennsylvania Railroad company in the United States circuit court by the Pennsylvania Coal and Coke company and the Webster Coal and Coke company, located in Blair, Cambria and Indiana counties of Pennsylvania. The former seeks to recover \$420,174.24 and the latter \$1,483,823. The suits are based on alleged discrimination and favoritism shown to competing companies by the defendant and the refusal and neglect to furnish sufficient cars to transport the output of coal and coke of the plaintiffs, and the failure to allow the plaintiffs certain rebates that were made to others.

Grain Rates Reduced.
Chicago, Jan. 28.—Following the action of the Missouri, Kansas and Texas, reducing the rates on grain from Omaha and Kansas City to Gulf ports, and the action of the Rock Island reducing the rate from Omaha and Kansas City to eastern points, the trunk lines east of Chicago reduced the rate on grain from 15 to 13 1/2 cents. The charges on export and domestic grain were cut from 20 to 17 1/2 cents. The differential rates are to Philadelphia 13 and Baltimore 12 cents. The Illinois Central followed almost immediately with a 12-cent rate from all points on its line in Illinois outside of Chicago to Gulf ports.

Engine Blown Up.
Chatfield, N. Y., Jan. 28.—A Lehigh Valley locomotive of the compound type drawing a freight train exploded here. George and John Wood, brothers, both of Chatfield, who were riding in the engineer's cab, were blown 50 feet and instantly killed. Engineer Charles Hoy of Manchester was pinned in his cab and was dead when found. Harry Bran, the fireman, of Buffalo, was severely injured and may die.

Threatened Strike Settled.
Wilkesbarre Pa., Jan. 28.—The threatened strike of the employees of the Wilkesbarre and Wyoming Valley Traction company has been settled. This morning the employees accepted a compromise offer of the company of an increase of 10 cents a day from \$1.80 to \$1.90 for nine hours work. The men had asked for \$2 a day.

Sudden Death

Of Pretty Mollie Taylor is Explained By the Autopsy.

Woodsfield, O., Jan. 28.—The funeral of pretty Mollie Taylor, the girl who died suddenly in Zanesville Wednesday, was held here.

The surroundings of her sudden demise aroused the suspicions of Prosecuting Attorney F. W. Ketterer, and a post-mortem examination was held, which divulged that instead of pleurisy and heart trouble, as was given out at the Palace Hotel, she had come to her death from the effects of an operation.

An orphan girl, of petite figure and charming manner, she became the victim of misplaced confidence. Six physicians were present at the autopsy, which was performed by Dr. F. C. Huth, who was assisted by Dr. W. E. Fulton.

The affair is creating considerable excitement with a possibility of highly sensational developments in the near future.

A RUMOR

SAYS B. & O. READING AND JERSEY CENTRAL

GET INSIDE.

Your Friends and Neighbors in Newark Will Show You How.

Rubbing the back won't cure backache.
A liniment may relieve, but can't cure.
Backache comes from the inside—from the kidneys.
Doan's Kidney Pills got inside.
They cure sick kidneys.
Here is Newark proof that this is so. M. B. Melick, driver of 54 W. Church St., Newark, O., says: "For a long time I was suffering from a constant sickening pain in the small of the back and in the hips. Any quick movement was followed by sharp, darting twinges that caught me suddenly and almost doubled me up. I suffered so from pains through the hips that at times I was almost laid up. Liniments and hot applications had little effect on it and I began using various medicines recommended for such troubles. I had little success until I got Doan's Kidney Pills, at Crayton's drug store. It was the only remedy that really found the right spot. It banished my troubles in time, and I have had no return of any symptom of kidney complaint since using it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Norebro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It always itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists.
